Re: LG Electronics Inc.

Dear Mr. Shing:

It has recently come to Intel's attention that LG Electronics Inc. (LGE) has contacted you and claimed that certain of your products infringe certain of LGE's patents. I am writing to notify you that Intel recently obtained a broad patent license from LGE. This patent license ensures that any Intel product that you purchase is licensed by LGE and thus does not infringe any patent held by LGE or any of LGE's subsidiaries.

This patent license is consistent with Intel's policy of standing behind its products. Please note however that

while the patent license that LGE granted to Intel covers Intel's products, it does not extend, expressly or by implication, to any product that you may make by combining an Intel product with any non-Intel product. If you have any questions or if you would like further clarification of the status of any particular Intel product under the LGE patent license, please do not hesitate to contact me.

Sincerely,

/s/ John E. Matheson
